

## **Error 7400 when running a Repair All**

Running a REPAIR ALL produces:

Error 7400 xBase Expression error error 6800 error 800

When the errors generate when trying to post a batch of credit cards:

Replace either the cdx file from init data for the file the repair all was bombing on, or replace \*.cdx from init and rerun the repair all after removing the "R" file attributes.
