

## What devices are supported for capturing images in VSC2?

All levels of VSC2 can capture images from the following types of devices:

- Video Capture boards and video conferencing cameras (VFW and WDM compatible)
- TWAIN devices such as scanners, cameras, etc.
- One click capture from many Kodak and Canon digital cameras
- Most digital cameras via TWAIN
- Graphic files in one of these formats: BMP, JPEG, GIF, TIFF, PCX, DIB
- Finger print scanners via TWAIN
- Signature and art tablets compatible with Mouse Draw function
